solutions

Atlas Medical is pleased to introduce Atlas Mobile for use with the Apple iPhone® and iPod touch®*.

Healthcare isn't a 9 to 5 job. Quality care means your physicians need access to clinical data 24/7. Atlas Mobile offers caregivers secure access to patient results from their smart phone or mobile device no matter where they are.

With Atlas Mobile, your physicians can:

- View new/unread patient results, with abnormal result flagging
- Access complete patient reports, with interpretive notes
- Verify individual patient demographics to ensure patient safety
- View historical lab results
- Phone patient while viewing results with simple tap-to-call option*
- Secure access to patient results—while maintaining patient confidentiality (No PHI stored on device)

Get ready to increase customer satisfaction, drive new business, and deliver accurate patient results—anytime, anywhere.

ARUP MD BRIDGE, powered by Atlas LabWorks®, is an integrated suite of solutions for developing, managing, and growing your outreach business.
